PROFESSIONAL SUMMARY

Driven developer with hands-on experience building web applications using Angular, React, Node.js, and Spring Boot. Open-minded and adaptable, focused on continuous learning, collaborating with engineering teams, and delivering maintainable, high-performance software solutions.

EDUCATION

Software Engineering | **2026 | 3.4**

University of Computer Science And Engineering Malaysia

- Applied core software engineering principles through coursework and assignments, emphasizing system design, testing, and maintainable code.
- Built web application prototypes using Angular, React, Node.js, and Spring Boot as part of academic work, demonstrating full-stack development and collaboration.
- Maintained a cumulative GPA of 3.4 while delivering final-year academic deliverables and balancing coursework deadlines.

Diploma in Computer Science | Universiti Teknologi Malaysia **2024 | 2.5**

- Result: 2.5

PROJECTS

IoT-Based Hostel Monitoring System

-Designed and built an IoT platform tailored for monitoring hostel facilities and environments.
-Awarded the Gold Medal for Best Presentation at the Innoverse Showcase for its design, functionality, and practical execution.

IoT Smart TechBand

-Built an assistive wearable device integrating smart hardware with software interfaces.
-Real-time speech-to-text processing designed to help deliver accessibility-focused reminders for users.

Domain Platform & Services (Digital Webplus)

-Contributed to enterprise-level domain management platform services.
-Key Contributions: Built responsive, high-fidelity UI pages based on Figma designs, addressed critical bug fixes, and handled feature updates for smooth operations.

Snooker & Pool Management Application

-Developed a custom management suite and Point of Sale (POS) system for a local snooker/pool venue.
-Real-time table timer tracking, dynamic pricing, order management, and financial reporting dashboards.

SKILLS

Java | Python | Restful API | Angular | Spring Boot | React | Flutter

WORK EXPERIENCE

Barista | Zus Coffee **Sept 2023 - Jul 2026**

- Prepared and served beverages and light food items following standard recipes and quality controls to maintain consistent customer experience.
- Operated the point-of-sale system and handled transactions while reconciling cash and digital payments at the end of shifts.
- Coordinated shift handovers and inventory restocking with colleagues to maintain supply levels and reduce shortages.

Stewardess | GSC **Mar 2023 - Aug 2023**

- Delivered front-line customer service by assisting patrons, answering inquiries, and ensuring comfortable seating arrangements.
- Performed routine safety and cleanliness checks in public areas and responded to incidents following venue procedures.
- Supported event flow and crowd management during peak screenings, liaising with concessions and floor staff to manage service.

Sales Assistant | PC Image **Apr 2021 - Sept 2021**

- Assisted customers with product selection and provided demonstrations for accessories and basic device features.
- Processed sales transactions, returns, and exchanges using established point-of-sale procedures while maintaining accurate records.
- Maintained merchandise displays and replenished stock on the sales floor, coordinating with back-of-house to restock as needed.

Software Developer | Inti Deras **Apr 2019 - Sept 2019**

- Contributed to backend development efforts using Java and Spring Boot to implement RESTful APIs for internal services.
- Collaborated with cross-functional stakeholders to refine requirements and support integration testing with dependent components.
- Wrote unit and integration tests and participated in code reviews to improve code quality and maintainability.
